

Accommodation Code	Accommodation Code Description	Type of Room	# of Beds	Average Nurse to Patient Ratio	Diagnosis	Additional Notes/Considerations
011X	011X Room and Board - Private (Medical or General)	Private	1	1:5	Medical/General	<b><i>This is the revenue category only. Not an accommodation code.</i></b>
0110	0110 General Classification ROOM-BOARD/PVT	Private	1	1:5	General	Medical and/or General beds are often seen as the default/minimum accommodation. Where hospitals do not want to necessarily designate the type of patient by diagnosis or other special circumstance.
0111	0111 Medical/Surgical/Gyn MED-SUR-GY/PVT	Private	1	1:5	Medical/Surgical/Gyn	Medical/Surgical/Gyn is the most common type of standard room accommodation. This is where most of the general inpatient population will fall. The larger designation here is the type of room (e.g. private, 2 bed).
0112	0112 Obstetric OB/PVT	Private	1	1:2	Obstetric	Used to bill OB-related room and board services for the mother. Delivery of a baby(ies) is not required. Can be used for mothers without delivery (based on payer requirements). Mothers that delivery prior to admission to the hospital (e.g. en route) are billed using non-OB revenue codes (i.e. Other 119, 129, 139, etc.) and newborn admission type 4. This revenue code does not include mothers that may be re-admitted post-delivery for OB-related issues and complications. Those mothers would be billed with a Medical/Surgical/Gyn accommodation (e.g. 111, 121, 131). The final revenue code is dependent on the type of room (e.g. private, 2 bed).
0113	0113 Pediatric PEDS/PVT	Private	1	1:4	Pediatric	Pediatric patients are not limited by age alone. There could be instances where adults with special needs require the treatment of a pediatrician (e.g. young adults with complex congenital conditions). This decision is best determined by the physician. The pediatric accommodation code can be used in units/floors that are not fully designated as a pediatric unit.
0116	0116 Detoxification DETOX/PVT	Private	1	1:12	Detoxification	This accommodation code is reserved for licensed inpatient detoxification services. Patients being treated for medical issues related to issue of alcohol or substance abuse should be assigned a medical or general accommodation code.
0126	0126 Detoxification DETOX/2BED	Semi-Private	2	1:12	Detoxification	This accommodation code is reserved for licensed inpatient detoxification services. Patients being treated for medical issues related to issue of alcohol or substance abuse should be assigned a medical or general accommodation code.
0117	0117 Oncology ONCOLOGY/PVT	Private	1	1:4	Oncology	Patients admitted for oncology treatment should be assigned the Oncology accommodation code. The final accommodation code will be based on the type of room (e.g. Private, 2 Bed).
0118	0118 Rehabilitation REHAB/PVT	Private	1	1:5	Rehabilitation	The rehabilitation accommodation code is used for subacute care such as long term care and skilled nursing. The final accommodation code is based on the type of room (e.g. Private, 2 Bed).
0119	0119 Other OTHER/PVT	Private	1	1:5	Other	"Other" accommodation codes are rarely used. These are used for those situations that are not otherwise indicated within the same category. The final accommodation code may be based on the type of room (e.g. Private, 2 Bed).
012X	012X Room and Board - Semi-Private Two Bed (Medical or General)	Semi-Private	2	1:5	Medical/General	<b><i>This is the revenue category only. Not an accommodation code.</i></b>
0120	0120 General Classification ROOM-BOARD/SEMI	Semi-Private	2	1:5	General	Medical and/or General beds are often seen as the default/minimum accommodation. Where hospitals do not want to necessarily designate the type of patient by diagnosis or other special circumstance.
0121	0121 Medical/Surgical/Gyn MED-SUR-GYN/2BED	Semi-Private	2	1:5	Medical/Surgical/Gyn	Medical/Surgical/Gyn is the most common type of standard room accommodation. This is where most of the general inpatient population will fall. The larger designation here is the type of room (e.g. private, 2 bed).
0122	0122 OB OB/2BED	Semi-Private	2	1:2	Obstetric	Used to bill OB-related room and board services for the mother. Delivery of a baby(ies) is not required. Can be used for mothers without delivery (based on payer requirements). Mothers that delivery prior to admission to the hospital (e.g. en route) are billed using non-OB revenue codes (i.e. Other 119, 129, 139, etc.) and newborn admission type 4. This revenue code does not include mothers that may be re-admitted post-delivery for OB-related issues and complications. Those mothers would be billed with a Medical/Surgical/Gyn accommodation (e.g. 111, 121, 131). The final revenue code is dependent on the type of room (e.g. private, 2 bed).
0123	0123 Pediatric PEDS/2BED	Semi-Private	2	1:4	Pediatric	Pediatric patients are not limited by age alone. There could be instances where adults with special needs require the treatment of a pediatrician (e.g. young adults with complex congenital conditions). This decision is best determined by the physician. The pediatric accommodation code can be used in units/floors that are not fully designated as a pediatric unit.
0136	0136 Detoxification DETOX/3&4BED	Semi-Private	3-4	1:12	Detoxification	This accommodation code is reserved for licensed inpatient detoxification services. Patients being treated for medical issues related to issue of alcohol or substance abuse should be assigned a medical or general accommodation code.
0146	0146 Detoxification DETOX/DLX	Deluxe	1	1:12	Detoxification	This accommodation code is reserved for licensed inpatient detoxification services. Patients being treated for medical issues related to issue of alcohol or substance abuse should be assigned a medical or general accommodation code.
0127	0127 Oncology ONCOLOGY/2BED	Semi-Private	2	1:4	Oncology	Patients admitted for oncology treatment should be assigned the Oncology accommodation code. The final accommodation code will be based on the type of room (e.g. Private, 2 Bed).
0128	0128 Rehabilitation REHAB/2BED	Semi-Private	2	1:5	Rehabilitation	The rehabilitation accommodation code is used for subacute care such as long term care and skilled nursing. The final accommodation code is based on the type of room (e.g. Private, 2 Bed).
0129	0129 Other OTHER/2BED	Semi-Private	2	1:5	Other	"Other" accommodation codes are rarely used. These are used for those situations that are not otherwise indicated within the same category. The final accommodation code may be based on the type of room (e.g. Private, 2 Bed).
013X	013X Room and Board - Semi-Private - Three and Four Beds	Semi-Private	3-4	1:5	General	<b><i>This is the revenue category only. Not an accommodation code.</i></b>
0130	0130 General Classification ROOM-BOARD/3&4BED	Semi-Private	3-4	1:5	General	Medical and/or General beds are often seen as the default/minimum accommodation. Where hospitals do not want to necessarily designate the type of patient by diagnosis or other special circumstance.
0131	0131 Medical/Surgical/Gyn MED-SUR-GY/3&4BED	Semi-Private	3-4	1:5	Medical/Surgical/Gyn	Medical/Surgical/Gyn is the most common type of standard room accommodation. This is where most of the general inpatient population will fall. The larger designation here is the type of room (e.g. private, 2 bed).
0132	0132 OB OB/3&4BED	Semi-Private	3-4	1:2	Obstetric	Used to bill OB-related room and board services for the mother. Delivery of a baby(ies) is not required. Can be used for mothers without delivery (based on payer requirements). Mothers that delivery prior to admission to the hospital (e.g. en route) are billed using non-OB revenue codes (i.e. Other 119, 129, 139, etc.) and newborn admission type 4. This revenue code does not include mothers that may be re-admitted post-delivery for OB-related issues and complications. Those mothers would be billed with a Medical/Surgical/Gyn accommodation (e.g. 111, 121, 131). The final revenue code is dependent on the type of room (e.g. private, 2 bed).

Accommodation Code	Accommodation Code Description	Type of Room	# of Beds	Average Nurse to Patient Ratio	Diagnosis	Additional Notes/Considerations
0133	0133 Pediatric PEDS/3&4BED	Semi-Private	3-4	1:4	Pediatric	Pediatric patients are not limited by age alone. There could be instances where adults with special needs require the treatment of a pediatrician (e.g. young adults with complex congenital conditions). This decision is best determined by the physician. The pediatric accommodation code can be used in units/floors that are not fully designated as a pediatric unit.
